EDUCATION

THE SCHOOL OF AI

EXTENSIVE AI: REIMAGINED AND
 ADVANCED
 2023 - present

SCALER ACADEMY

DATA SCIENCE MACHINE LEARNING
 Oct 2021 - 2023

SONA COLLEGE OF TECHNOLOGY

BE IN ELECTRICAL ENGINEERING
 April 2020 | TamilNadu, India
 CGPA: 8.1 / 10

NADAR HR SEC SCHOOL

HIGH SCHOOL IN KVP
 March 2016 | TamilNadu, India
 percentage: 92 / 100

SKILLS

PROGRAMMING

Python3 • Bash/Shell • Powershell • SAS

FRAMEWORK AND TOOLS

Linux • Git/GitHub • Mainframe • Matlab
 • Tableau • Flask • langchain

TOOLS

MySQL • DB2-SQL • google-bigquery •
 AWS-S3 • Athena • EC2

ML LIBRARIES

numpy • pandas • seaborn • plotly •
 matplotlib • scikit-learn • statsmodels •
 xgboost

DL LIBRARIES

• Pytorch • Torchvision

ADVANCE MATHEMATICS

probability • Statistics • SVD • FFT

EXPERIENCE

THE MATH COMPANY | ASSOCIATE DATA SCIENTIST

Dec 2022 – present | Bengaluru, India

- Dashboard solution, Unified Visualization platform for all Codx Media products: It is an interactive visualization platform TheMathCompany's analytics services.
- **MMM Modelling Platform**, Implementation of TheMathCompany Marketing Mix methodology for market-level
- Skilled to understanding business and provide data-oriented solutions to business stakeholders both technical and non-technical.
- Handled large amounts of data through **AWS** cloud services
- Helped pave way to replace the retailer's traditional national promotion strategy with personalised promotion, thus generating a 15% uplift in sales for 10 pilot stores
- Media Mix Model helped better optimise resource allocation and lead to an increase of 4% ROI

TCS LIMITED | DATA ANALYST

Sep 2020 – Dec 2022 | Bengaluru, India

- Leveraged **IBM DB2** to perform the job
- Created a solution for developers to get quick completion CRQ which reduces 32% team effort of working on temporary grants and DML work orders.
- Automated various job failure fix using **Shell Scripting, powershell and python3**
- Executed test scripts/scenarios to verify that the application functionality operates and performs successfully in accordance with the approved Requirements and System Design.
- Analyse captured DB2 usage consumption and represent in **Tableau dashboard**

PROJECTS

- Build a Personalised generative AI Assistance model that helps to solve queries related to APJ Kalam build using langchain, next-js and vector-db **project: kalam**
- Image Classification in Bill queue using ninjacart vegetable dataset classification. **project: Ninja cart**

ACHIEVEMENT AND RESPONSIBILITIES

- Aced Microsoft Azure Certified (**AZ-900**)
- **The Complete Data Science Bootcamp** from udemy
- Participated in National level **SGFI-13** and bagged trice in State level HandBall Matches
